# Management of Network Route Competence

Operations Standard

This Australian Standard® AS 7454 Management of Network Route Competence was prepared by a RISSB Development Group consisting of representatives from the following organisations:

MTM	JHG	V/Line
Pacific National	Rail Safety Consulting (Aust)	DPTI

The Standard was approved by the Development Group and the Operations Standing Committee in August, 2017. On September 21, 2017 the RISSB Board approved the Standard for release.

This standard was issued for public consultation and was independently validated before being approved.

Development of the Standard was undertaken in accordance with RISSB's accredited process. As part of the approval process, the Standing Committee verified that proper process was followed in developing the Standard.

RISSB wishes to acknowledge the positive contribution of subject matter experts in the development of this Standard. Their efforts ranged from membership of the Development Group through to individuals providing comment on a draft of the Standard during the open review.

I commend this Standard to the Australasian rail industry as it represents industry good practice and has been developed through a rigorous process.

**Paul Daly**  
Chief Executive Officer  
Rail Industry Safety and Standards Board

## Keeping Standards up-to-date

Australian Standards developed by RISSB are living documents that reflect progress in science, technology and systems. To maintain their currency, Australian Standards developed by RISSB are periodically reviewed, and new editions published when required. Between editions, amendments may be issued. Australian Standards developed by RISSB may also be withdrawn.

It is important that readers assure themselves they are using a current Australian Standard® developed by RISSB, which should include any amendments that may have been issued since the Standard was published. Information about Australian Standards developed by RISSB, including amendments, can be found by visiting [www.rissb.com.au](http://www.rissb.com.au).

RISSB welcomes suggestions for improvements, and asks readers to notify us immediately of any apparent inaccuracies or ambiguities. Members are encouraged to use the change request feature of the RISSB website at: <http://www.rissb.com.au/products/>. Otherwise, please contact us via email at [info@rissb.com.au](mailto:info@rissb.com.au) or write to Rail Industry Safety and Standards Board, PO Box 4271, Kingston ACT 2604, Australia.
