AS 7501:2013

Rolling Stock

AS 7501 Railway Rolling Stock Compliance Certification
This Australian Railway Standard \textit{AS 7501 Railway Rolling Stock Compliance Certification} was prepared by the RISSB Rollingstock Development Group. It was signed off by the RISSB Rollingstock Development Group and RISSB Standing Committee in Month, Year and subsequently by the Development Advisory Board (DAB) in March 2013. The DAB confirmed that the process used to develop the standard was in accordance with the RISSB accredited development process. On the 20th March 2013 the RISSB Board approved the Standard for release. This Standard was published on the RISSB website (www.rissb.com.au) on the 22 March 2013.

Kevin Taylor  
Chief Executive Officer  
Rail Industry Safety and Standards Board

\textbf{Keeping Standards up-to-date}

Australian Standards developed by RISSB are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are reviewed every five years, and new editions are published. Between editions, amendments may be issued.

Australian Standards developed by RISSB may also be withdrawn. It is important that readers assure themselves they are using a current RISSB Standard, which should include any amendments that may have been published since the Standard was published.

Information about Australian Standards to be developed by RISSB, drafts, amendments, and new projects can be found by visiting www.rissb.com.au

RISSB welcomes suggestions for improvements, and encourages readers to notify it immediately of any apparent inaccuracies or ambiguities. Contact us via email at rissb@rissb.com.au or write to Rail Industry Safety and Standards Board, PO Box 4608, Kingston, ACT 2604

### 1 INTRODUCTION

#### 1.1 IMPORTANT NOTICE AND DISCLAIMER

1 The Rail Industry Safety & Standards Board ("RISSB") provides a range of products, collectively called the "RISSB Products", including:

1(a) Standards;
1(b) Codes of Practice;
1(c) Rules;
1(d) Guidelines; and
1(e) Handbooks.

2 RISSB does not undertake a full risk assessment of the RISSB Products it develops due to the diverse operating environments operating across Australia.

3 Rather it identifies the hazards that must be addressed on the Australian Rail Network and develops products to accommodate these.

4 Responsibility rests with the rail organisation, should it choose to adopt a RISSB Product, to ensure that the RISSB Product is safe for use on the network on which it is intended to be used.

5 This would include a risk assessment.

6 RISSB and all persons acting for RISSB in preparing a RISSB Product disclaim any liability or responsibility to any person for any consequences arising directly or indirectly from the use by the rail industry or rail organisations of the RISSB Product in whole or in part, and whether or not in conjunction with, or as a supplement to, the guidelines which the rail industry or rail organisation currently uses.

7 Users of the RISSB Products should be aware that, while using the RISSB Products, they must also comply with any relevant Commonwealth, State or Territory legislation relevant to their operations.

8 Adherence to the RISSB Products does not replace or exclude the application of such legislative requirements.
