Other industry partners

RISSB's Role

RISSB is industry's partner in co-regulation, focusing on:

- + **Standards, Codes of Practice, Guidelines and Rules**
- + **Safety Data and Risk Analysis Models**
- + **Training and Advice**
- + **Events and Programs**
- + **Industry Co-Ordination**

RISSB drives national harmonisation and interoperability by working hand in hand with industry to develop Standards, Codes of Practice, Guidelines and Rules. RISSB has over 200 publications covering all aspects of rail. These publications improve safety, offer safety assurance, reduce costs and increase productivity and efficiency.

RISSB is:

- + Streamlining its work plan development process. RISSB balances input from both a technical and business perspective, actively encouraging input from all organisations and all levels within organisations

- + Focusing on technology and innovation
- + Offering an increasing suite of industry-wide and rail operator specific training courses
- + Reviewing membership fees and improving membership benefits
- + Boosting RISSB's data and associated risk analysis capabilities, particularly in relation to the Australian Rail Risk Model (ARRM) and the Australian Level Crossing Assessment Model (ALCAM)
- + Adding the Occupational Health and Safety survey to its toolkit
- + Revitalising key events including conferences, symposiums and forums
- + Driving national harmonisation and interoperability including working with governments on the National Rail Action Plan
- + Working more closely with industry through stronger stakeholder engagement, including:
 - » Increasing engagement with CEOs and COOs
 - » Improving our external communications
 - » Enhancing our website with the addition of a dedicated resource hub.

RISSB is the ONLY accredited Standards development organisation for the rail industry in Australia. RISSB Standards are Australian Standards®

RISSB MEMBERSHIP BENEFITS

RISSB is an essential part of rail's co-regulatory environment. Our members rely on our publications to meet their legal obligations.

RISSB membership:

- + Provides Standards, Codes of Practice, Guidelines and Rules that you can use directly or modify for your specific operations or project
- + Ensures your organisation is part of a collaborative industry driven process which leads to improvements in safety and productivity in the rail industry
- + Makes you central to shaping the technical future of the rail industry
- + Offers opportunities to network with an extensive pool of rail industry professionals
- + Saves your organisation significant development costs and offers safety assurance
- + Grants access to ARRМ
- + Gives you a significant discount to events including conferences and programs
- + Provides access to technical advice on RISSB publications and broader safety matters
- + Provides opportunities to promote your organisation and learn from others.

Drive the future of safety and productivity in rail with your industry partner in co-regulation. Join RISSB – become a member

RISSB'S COMMITMENT TO ITS MEMBERS

ONE WE WILL DELIVER WHAT YOU NEED

We want your involvement as a partnership, where you drive RISSB to deliver what you need.

TWO WE PROVIDE UNBIASED, INDEPENDENT AND OBJECTIVE INFORMATION

RISSB publications include Australian Standards®, Codes of Practice, Guidelines and Rules.

THREE WE WILL COMMUNICATE REGULARLY

We want you to know what RISSB is doing so you can influence our future planning. Weekly newsletters, regular emails, social media and a revised website are all core elements of our communication suite.

FOUR WE WILL CONTINUALLY IMPROVE

We will track, monitor and measure member sentiments to evaluate our performance and continually improve our member-focused offering for the greater good of the entire rail industry.
