50
participants

50 participants from 31 rail organisations attended the **Horizons 2.0 Program**.

NATIONAL RULES
RAIL INDUSTRY SAFETY AND STANDARDS BOARD

RISSB delivered the National Rules Framework and published a Network Communication Rule.

RISSB remains the **ONLY accredited standards development organisation for the rail industry in Australia**. Since July 2007, RISSB has maintained its accreditation with Standards Australia to develop Australian Standard® brand Standards for the rail industry.
